Shutterstock Reports Third Quarter 2019 Financial Results

November 5, 2019

NEW YORK, Nov. 5, 2019 /PRNewswire/ - Shutterstock, Inc. (NYSE: SSTK) (the "Company"), a leading global technology company offering a creative platform for high-quality content, tools and services, today announced financial results for the third quarter ended September 30, 2019.

Commenting on the Company's performance, founder and CEO Jon Oringer said, "We executed well in the third quarter, delivering revenue growth while maintaining consistent cash generation - keeping us on track to achieve our guidance for 2019. We're continuing our work on improving the performance of our enterprise business with the goal of better supporting the professionals who rely on our content, tools and services to be successful in their work.

"Our team is highly focused on achieving operational and marketing efficiencies, that will position Shutterstock to drive even stronger results throughout 2020."

Third Quarter 2019 highlights compared to Third Quarter 2018:

Key Operating Metrics

- · Paid downloads increased 5% to 46.3 million.
- Revenue per download remained flat at \$3.40.
- Image collection expanded 34% to approximately 297 million images.
- Video collection expanded 33% to approximately 16 million clips.

Financial Highlights

- Revenue increased 5% to \$159.1 million. On a constant currency basis, revenue increased 6%.
- Income from operations decreased by 52% to \$3.2 million.
- Net income decreased by 34% to \$4.9 million.
- Adjusted EBITDA decreased 14% to \$21.6 million.
- Diluted EPS decreased by \$0.07 to \$0.14 per share.

THIRD QUARTER RESULTS

Revenue

Revenue was \$159.1 million for the third quarter of 2019, an increase of \$7.5 million, or 5%, as compared to the third quarter of 2018, driven by positive year-over-year growth in our e-commerce channel. Revenue generated through our e-commerce channel increased approximately 8% as compared to the third quarter of 2018, to \$96.2 million and represented 60% of total revenue in the third quarter of 2019. Revenue from enterprise customers was \$62.8 million, which remained flat compared to 2018 and represented 40% of total revenue in the third quarter of 2019.

Revenue growth on a constant currency basis was approximately 6% in the third quarter of 2019, as compared to the third quarter of 2018. E-commerce and enterprise revenue growth on a constant currency basis were approximately 10% and 1%, respectively, in the third quarter of 2019, as compared to the third quarter of 2018.

Income from Operations

Income from operations was \$3.2 million, a decrease of \$3.5 million, or 52%, compared to the third quarter of 2018, primarily as a result of an increase in operating expenses of \$11.0 million, or 8%, partially offset by an increase in revenue of \$7.5 million. The increase in operating expenses is attributable to sales and marketing expenses, which is due to higher marketing costs, and an increase in general and administrative expenses. General and administrative expenses have increased due to compensation and technology related costs.

Net Income

Net income of \$4.9 million, or \$0.14 per diluted share, decreased \$2.5 million for the third quarter of 2019 as compared with \$7.4 million, or \$0.21 per diluted share, for the third quarter of 2018, primarily driven by the reduction in income from operations partially offset by an increase in the income tax benefit for the third quarter of 2019 attributable to discrete income tax items.

Adjusted EBITDA

Adjusted EBITDA of \$21.6 million for the third quarter of 2019 decreased \$3.5 million, or 14%, as compared to the third quarter of 2018, driven primarily by the reduction in income from operations. We define adjusted EBITDA as net income adjusted for foreign currency transaction gains and losses, expenses related to long-term incentives and contingent consideration related to acquisitions, impairment charge related to a long-term investment asset, interest income and expense, income taxes, depreciation, non-cash equity-based compensation and the gain on the sale of Webdam.

Adjusted Net Income

Adjusted net income was \$10.3 million, or \$0.29 per diluted share, for the third quarter of 2019 as compared to \$13.4 million, or \$0.38 per diluted share, in the third quarter of 2018, a decrease of \$3.1 million, or 23%. We define adjusted net income as net income excluding the impact of non-cash equity-based compensation, the amortization of acquisition-related intangible assets, expenses related to long-term incentives and contingent consideration related to acquisitions the gain or the Sale of Webdam, impairment charce related to a long-term incentives to such adjustments.

LIQUIDITY

Our cash and cash equivalents increased by \$54.5 million to \$285.4 million at September 30, 2019, as compared with \$230.9 million at December 31, 2018. This increase was driven by \$77.0 million of net cash provided by our operating activities, \$4.6 million of proceeds from the exercise of stock options and \$2.5 million received from the release of escrowed funds related to the sale of Webdam, which was sold in the first quarter of 2018 (the "Sale of Webdam"), partially offset by \$19.5 million of cash used in settlement of employee taxes related to the vesting of restricted stock units.

We paid net cash taxes of \$1.5 million during the nine months ended September 30, 2019, compared to \$0.4 million paid during the first nine months of 2018.

Free cash flow was \$55.6 million for 2019, an increase of \$19.4 million from 2018. This change was primarily driven by lower capital expenditures, in addition to higher net cash provided by operations. Free cash flow is defined as cash provided by operating activities adjusted for capital expenditures and content acquisition.

STOCK REPURCHASE PROGRAM

During the third quarter of 2019, we did not repurchase shares of our stock pursuant to our existing stock repurchase program. From the inception of this program through September 30, 2019, we have repurchased 2.6 million shares of our stock for a total of \$100 million under the stock repurchase program at an average per-share price of \$39.09. As of September 30, 2019, there remains \$100 million authorized for purchases under our stock repurchase program.

The stock repurchase program, which commenced in November 2015, authorizes the Company to purchase shares of our stock from time to time through open market purchases or privately negotiated transactions at prevailing prices as permitted by securities laws and other legal requirements. The timing and amount of any future share repurchases will be determined by our management based on its evaluation of market conditions and other factors. The repurchase program may be modified, suspended or discontinued at any time.

NON-GAAP FINANCIAL MEASURES

In addition to reporting results in accordance with United States generally accepted accounting principles (GAAP), Shutterstock also refers to adjusted EBITDA, adjusted net income, revenue growth (including by distribution channel) on a constant currency basis, revenue excluding the impact of Webdam, revenue growth excluding the impact of Webdam, on a constant currency basis and free cash flow.

Shutterstock defines adjusted EBITDA as net income adjusted for foreign currency transaction gains and losses, expenses related to long-term incentives and contingent consideration related to acquisitions, impairment charge related to a long-term investment asset, interest income as adjusted net income excluding the impact of non-cash equity-based compensation, the amortization of acquisition-related intragible assets, expenses related to long-term incentives and contingent consideration related to acquisitions, impairment charge related to a long-term investment asset and the estimated tax impact of such adjustments; revenue growth (including by distribution channel) on a constant currency basis as the increase in current period revenues (including revenues by distribution channel) over prior period revenues, utilizing fixed exchange rates for translating foreign currency revenues for all periods in the impact of Webdam, on a constant currency basis as the increase in current period twebas as total Company revenue for each period presented, less the amount of revenue generated by the Webdam business during that period; trevenue growth excluding the impact of Webdam, on a constant currency basis as total Company revenue for each period presented, less the amount of revenue generated by the Webdam business during that period; trevenue growth excluding the impact of Webdam, on a constant currency basis as total Company revenue for each period presented, less the amount of revenue generated by the Webdam business during that period utilizing fixed exchange rates for translating foreign currency revenues for both periods; and free cash flow as cash provided by operating activities, adjusted for capital expenditures and contine equivaliant. These figures have not been calculated in accordance with GAAP and should be considered as a substitute for, or superior to, GAAP results. We caution investors that non-GAAP financial measures are not based on any standardized methodology prescribed by GAAP and are not necessaril

Management believes that adjusted EBITDA, adjusted net income, revenue excluding the impact of Webdam, revenue growth (including by distribution channel) on a constant currency basis, revenue excluding the impact of Webdam, on a constant currency basis as that used by management. Additionally, management believes that adjusted EBITDA and adjusted net income provide useful information to investors for butterstock's operating results on the same basis as that used by management. Additionally, unusual or other infrequent charges that are not directly attributable to Shutterstock's underlying operating performance; with respect to revenue growth (including by distribution channel) on a constant currency basis, this provides useful information to investors by eliminating the effect of foreign currency fluctuations that are not directly attributable to Shutterstock's underlying operating performance; with respect to revenue growth (including by distribution channel) on a constant currency basis, this provides useful information to investors by eliminating the effect of foreign currency fluctuations that are not directly attributable to Shutterstock's underlying operating performance; with respect to revenue growth (including by distribution channel) on a constant currency basis, this provides useful information to investors by eliminating the effect of foreign currency fluctuations that are not directly attributable to Shutterstock's underlying operating the impact of Webdam, nevenue growth excluding the impact of a historical revenue growth excluding the impact of or or currency basis (expressed as a percentage). Here we escue that is not part of our current business and, as applicable, also provides useful information to investors by eliminating the effect of foreign currency fluctuations that are not directly attributable to Shutterstock's financial reporting. Management believes that free cash flow is useful for investors because it provides them with an important perspective on the cash available for strategic m

Shutterstock's management also uses the non-GAAP financial measures adjusted EBITDA, adjusted net income, revenue excluding the impact of Webdam, revenue growth (including by distribution channel) on a constant currency basis, revenue growth excluding the impact of Webdam, on a constant currency basis and free cash flow, in conjunction with GAAP financial measures, as an integral part of managing the business and to: (i) monitor and evaluate the performance of Shutterstock's business operations, financial performance and overall liquidity; (ii) facilitate management's internal comparisons of the historical operating performance of its business operations, financial business to the historical operating performance of the valuating emprises and evaluate the analytic evaluating performance of the results of its overall business to the historical operating performance of shutterstock's management team and, together with other operational objectives, as a measure in evaluating employee compensation and bonuses; (v) analyze and evaluate financial and strategic planning decisions regarding future operating investments; and (vi) plan for and prepare future annual operating budgets and determine appropriate levels of operating investments.

A reconciliation of the differences between adjusted EBITDA, adjusted net income, revenue excluding the impact of Webdam and free cash flow, and the most comparable financial measure calculated and presented in accordance with GAAP, is presented under the heading "Reconciliation of Non-GAAP Financial Information to GAAP" immediately following the Consolidated Balance Sheets. We do not provide a reconciliation of adjusted EBITDA guidance to net income guidance, as the impact of net non-operating foreign currency exchange gains or losses which are excluded from adjusted EBITDA is inherently uncertain and difficult to estimate and is unavailable without unreasonable efforts. In addition, we believe such reconciliations would imply a degree of precision that would be confusing or misleading to investors.

Certain amounts in the table may not foot due to rounding. On February 26, 2018, the Company completed the Sale of Webdam. This table includes revenue earned during 2017 and for the period from January 1, 2018 through February 26, 2018. (4)

Effective January 1, 2018, the Company adopted new revenue recognition accounting guidance using a modified retrospective approach. Historical revenue totals reflect those previously reported and have not been restated. Historical presentation of the allocation of the revenue by sales channel for periods prior to January 1, 2018 has been adjusted to conform to current presentation. (5)
