

Shutterstock is First Stock Agency to Integrate New Dropbox Saver

July 9, 2013 8:24 PM EDT

Integration enables users to seamlessly download and save images and video to their Dropbox for use on multiple devices.

NEW YORK, July 9, 2013 /PRNewswire/ -- Shutterstock, Inc. (NYSE: SSTK), a leading global provider of [digital imagery](#), today announced the integration of the new [Dropbox Saver](#). This integration allows Shutterstock customers to seamlessly save assets directly to their Dropbox folder, making images and video instantly available on all computers and mobile devices.

"With more than [25 million photographs](#), [illustrations](#) and [videos](#) to browse and download, Shutterstock customers need an easy way to save large files and access them across devices," said Wyatt Jenkins, VP of Product at Shutterstock. "By integrating with Dropbox, we're saving our customers time and delivering a frictionless workflow experience. Now users can download what they need without having to worry about size, quantity, or accessibility."

Launched at [DBX](#), Dropbox's inaugural developer conference, the Saver gives files from any application a fast lane into a user's Dropbox. The Saver will be immediately available to a segment of Shutterstock customers, with a full roll out expected in the coming weeks.

About Shutterstock

Shutterstock is a leading global provider of [high-quality licensed photographs](#), [vectors](#), [illustrations](#) and [videos](#) to businesses, marketing agencies and media organizations around the world.

Shutterstock works closely with its growing contributor community of photographers, videographers, illustrators and designers to curate a global marketplace for [royalty-free imagery](#). Shutterstock adds tens of thousands of rights-cleared images each week, and with more than 25 million images currently available, the company recently surpassed 300-million image downloads.

Headquartered in New York City, Shutterstock also owns Bigstock, a value-oriented stock media agency.
